# 9900S/9900X

## COIN-OP SYSTEMS

**iTeam Resources**
One Company One Source Total Solution

**COMPATIBLE WITH
THESE COPIER BRANDS:
CANON - HEWLETT PACKARD - KONICA MINOLTA
KYOCERA MITA - LANIER - PANASONIC - RICOH -
SAMSUNG - SHARP - TOSHIBA - XEROX**

**iTeam** introduces its new coin-op models **9900S** and **9900X** for copiers and printers. Those two coin-ops offer you a state-of-the-art technology while sharing the same cabinet and mechanical components.

Ideal for a one-vend price operation, the **9900S** is our economic model. It adapts to almost all makes of copiers. Its interface offers many features only available in high-price model of the competition such as a two-line LCD display, coin changer for escrow operations, optional bill and card readers, detailed audit and bypass service key.

As for the **9900X** model, it represents the best-ever coin-op on the market. Its new electronic board and the new intuitive programming allow the **9900X** to exceed the current needs of the industry for multifunction, black & white and color copiers. Among the many features are: a four-line blue LCD display, up to 14 vend prices in cash and 14 with card, type of printing detection, from paper size to duplex mode. Equipped with a serial/USB port, the **9900X** can be coupled to many pay-per-print type software.
